

What Every Parent In America Needs To Know:

***You are in a daily competition for the loyalty, heart, mind and soul of your children.
Your competition is all around you and you need to get in the game!***

Healthy and happy children are not the result of more youth programs, pools, parks, or police on the streets. Happy children and safe communities are the result of parents who raise healthy, respectful, obedient children. This makes parental leadership crucial and that's what *Parents on a Mission* is all about.
